# SELINE
## CHECKOUT ZONE

**SPEED AND CONVENIENCE OF SERVICE FOR YOUR EFFICIENT STORE**

**SELINE is a range of products for modern checkout zone. It was designed to meet the new customers` expectations based on speed, convenience, digitalisation and personalisation of the shopping experience.**

Modern shoppers are becoming more experience-oriented and want the payment process to run smoothly and quickly.

This factor led to some major changes in the image of physical stores, especially their checkout zones.

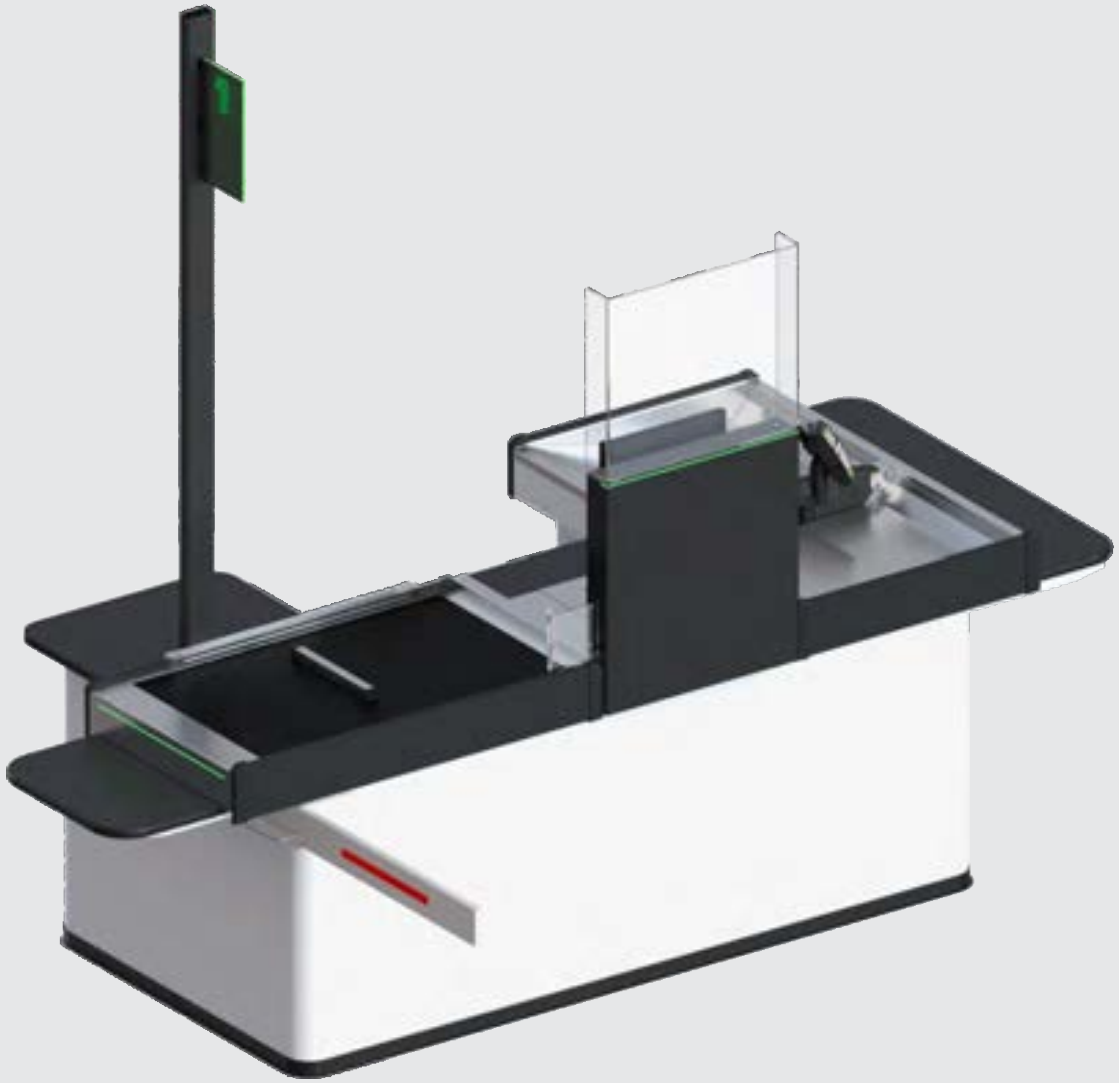
## EVO

## EVO MINI

## EVO EXPRESS

**EVO checkout counters** are designed to meet the diverse needs of various retail formats

**The modularity** of EVO counters allows customizing the layout and design to match every store`s unique style and functional requirements



watch here

**Combine EVO** counter with **ROTO** self-checkout, which can work in traditional or self-service mode.

All that is needed is to change the device orientation by 180° with a light movement.

# SCENARIO OF WORK WITH ROTO

**1**

The cashier serves customers in the traditional mode at the **EVO + ROTO checkout**

**2**

The number of visitors of the store is decreasing

**3**

The cashier rotates **ROTO** to SELF-SERVICE mode

**4**

Customers use **ROTO** in the SELF-SERVICE mode

**5**

The cashier fills the shelves with goods
